Speediance Global Sales Regions and Service Centers

COMPANY PROFILE

Speediance is a cutting-edge fitness brand dedicated to providing intelligent products that revolutionize home gym workouts. Our mission is to create scientifically sound fitness tools and content, personalized AI instruction, and a supportive community. We are committed to utilizing cutting-edge technology to provide the most innovative approach to home fitness.

By digitalizing and visualizing strength training, Speediance empowers individuals to achieve healthy lifestyles through cutting-edge technologies. As pioneers in the smart fitness industry, we have assembled a team of experts encompassing hardware, algorithms, software, and coaching. This diverse expertise allows us to create the ultimate fitness experience while introducing new and intelligent commercial products.

With a commitment to continuous innovation, Speediance is dedicated to bringing a more high-tech vibe to fitness enthusiasts worldwide.

Embracing a Healthy Lifestyle

Speediance is specifically designed with every fitness goal in mind. It serves as a motivating companion during training, helping individuals stay on track with their workout routine, and promoting increased energy and activity levels.

Stay Connected with Speediance

Join the supportive Speediance community where fitness enthusiasts connect and find motivation. Share your workout experiences, freely discuss your life and fitness journey, and inspire others along the way.

Prioritizing Sustainability

With its all-in-one design, Speediance optimizes material usage while catering to diverse fitness needs. The structure and motor are built to be highly durable, ensuring long-term usage while reducing carbon emissions.

PRODUCT FEATURES

Technology Experience, Digital
Drive, Wake Up Vitality

Power Electronic Control
System, Empower
Traditional Forces to
Upgrade Digitally.

SMART FITNESS

Adaptive Resistance

Weight adjustment at a tap. Easy and handy.

Scientific Exercise Programs Development & Smart Management File

Automatic generation of exclusive intelligent sports data files,
comprehensive tracking of fitness goals and achievements.

OTA (over-the-air) Update

Support software download and updates under the WiFi
environment.

Digital Management System

Provide scientifically-based exercise goals and measurable fitness
outcomes by adopting the precise training data technology of
Speediance.

Dynamic Weight Mode

Adjust the standard, chain, and eccentric modes according to your
training needs and preference.

Adaptive Resistance

With a maximum weight of 220 lbs / 100kg and an adjustable increment of 1 lb/0.5kg, you can fine-tune your training to fit your needs.

Scientific Exercise Programs & Integrated Exercise File

Coach creates a customized training plan based on trainers' specific needs, which helps them develop good training habits, increase their initiative and motivation, and complete their training systematically and scientifically.

OTA Update

Speediance supports software download and updates under the environment of WiFi. This provides trainers with a simple and convenient upgrade method that enhances the user experience, while also significantly reducing power consumption.

Digital Management System

Speediance offers a seamless switching experience through its digital management system, mobile app, and hardware app sharing and linkage, resulting in smart, scientific, and precise training effects.

Users-Side APP

Data View: You can easily and swiftly check the outcome of your training.
Data Statistics: You have access to the entire training data and can review it.
Exercise Program: The coach can create a more precise program based .
Model Introduction: Gain insight into the trainer's equipment information.

Coach's Side App

Upon completion of a training session, the coach can conveniently access the training results. The coach can also utilize this information to monitor and adjust the training plan, as well as develop follow-up exercise plans based on the gathered data.

DYNAMIC WEIGHT MODES

Speediance provides three dynamic weight modes to help you build strength and break through plateaus quickly and efficiently.

Standard Mode

Standard mode provides resistance that matches the weight you select to ensure consistency throughout your workout.

Phase	Resistance (lb)
Concentric	20
Eccentric	20

Eccentric Mode

Eccentric Mode isolates the negative movement phase of an exercise, increasing resistance as you return to your starting position.

Phase	Resistance (lb)
Concentric	15
Eccentric	25

Chain Mode

Chain mode is a mode that progressively adds weight as you approach the top of the motion, providing a unique challenge for your workout.

Phase	Resistance (lb)
Concentric	10 to 30
Eccentric	30 to 10

PATENTED DUAL DIRECT-DRIVE MOTORS

- Speediance has revolutionized the fitness industry with the world's first patented dual direct-drive motor technology. This groundbreaking innovation has earned us numerous national motor and algorithm patents.
- Our dual direct-drive motor technology simulates a wide range of weights by precisely adjusting the rotating torque. With independent control over the left and right forces, our equipment ensures safe and stable resistance, offering an impressive resistance range of 1-220 pounds for two cables.
- Smart and easy control with the tap of a button lets you easily adjust the weight in 1 lb increments and switch your weight mode with ease.
- With a motor control frequency of up to 15KHz/s and the support of highly sensitive sensors, our technology provides exceptional accuracy in capturing data.

INTELLIGENT PRODUCTS

Intelligent Gym Equipments Master Pro Series

Our intelligent strength training equipment is meticulously crafted to meet the rigorous demands of fitness and health professionals. In the realm of commercial fitness equipment manufacturing, domestic enterprises have acknowledged that hardware products alone no longer suffice to cater to the ever-expanding market needs. In light of this, Speediance has risen to the occasion and, through relentless innovation, has created training equipment that seamlessly integrates intelligence and technology.

We understand the evolving landscape of fitness and health, and our cutting-edge equipment is a testament to that. With a focus on intelligence and technological advancements, we have developed a range of training equipment that goes beyond conventional offerings. Elevate your fitness journey with our intelligently designed and technologically advanced solutions.

Smart Seated Abduction & Adduction Machine

M50M2A1A1

Dimension: 53.54inch×53.15inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 550pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:
The Smart Machine has some fantastic features that really stand out. One of the key highlights is its ability to specifically target your abduction and adduction muscles. Once you've chosen the digital weight that best suits you, it can effectively activate and engage these muscles, all while keeping precise records of your training metrics.

Smart Leg Curl & Extension Machine

M41M1A1A1

Dimension: 53.86inch×52.68inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 478pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:
The Smart Machine is a game-changer for anyone looking to build a killer chest and tone their deltoids. Thanks to its cutting-edge Speediance digital weight technology, this machine can efficiently target your chest muscles, helping you sculpt a 3D chest that's sure to turn heads. But that's not all - the machine is also great for toning your deltoids, giving your shoulders a sleek, defined look. And with a built-in system that tracks your training metrics, you can monitor your progress and stay on top of your fitness goals.

Smart Seated Butterfly & Butterfly Reverse Machine

M07M3A1A1

Dimension: 65.59inch×60.51inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 478pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Smart Machine is a game-changer for anyone looking to build a killer chest and tone their deltoids. Thanks to its cutting-edge Speediance digital weight technology, this machine can efficiently target your chest muscles, helping you sculpt a 3D chest that's sure to turn heads. But that's not all - the machine is also great for toning your deltoids, giving your shoulders a sleek, defined look. And with a built-in system that tracks your training metrics, you can monitor your progress and stay on top of your fitness goals."

Smart Seated Shoulder Press Machine

M03U3A1A1

Dimension: 59.65inch×64.17inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 542pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Smart Machine is a top-of-the-line fitness machine that's perfect for targeting your lateral deltoid and upper chest muscles. Thanks to its state-of-the-art Speediance digital weight technology, you can fine-tune your workout to achieve maximum results. And with a built-in system that precisely tracks your training metrics, you can stay on top of your progress and make sure you're getting the most out of every workout.

Smart Seated Chest Press Machine

M01U2A1A1

Dimension: 72.64inch×51.57inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 628pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Seated Chest Press is an incredible piece of fitness equipment that's perfect for targeting your pecs and giving you a toned, sculpted chest. Featuring Speediance digital weight technology, this machine allows you to adjust the weight to your desired level, so you can get the most out of your workout. But that's not all - It is also great for working out your arms, giving you a full-body workout that's hard to beat. And with a built-in system that tracks your training metrics, you can monitor your progress and see how far you've come on your fitness journey.

Smart Seated Lat Pulldown Machine

M09D1A1A1

Dimension: 50.87inch×50.59inch×77.2inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 492pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Smart Machine is the ultimate tool for anyone looking to sculpt their lats, pump up strength, build muscle mass, or improve endurance. With its innovative Speediance digital weight technology, this machine can precisely target your lats, helping you achieve the results you want in less time. And with a built-in system that tracks your training metrics, you can keep track of your progress and stay motivated to reach your fitness goals.

Smart Biceps Curl Machine

M17D3A1A1

Dimension: 50.79inch×46.85inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 537pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Smart Machine is a versatile piece of equipment that can help you tone your arms, sculpt your muscles, and improve your overall strength. Its state-of-the-art Speediance digital weight technology allows you to customize your workout to target your arms with pinpoint accuracy. And with its built-in tracking system, you can monitor your progress and stay on top of your fitness goals.

Smart Seated Leg Press Machine

M61D4A1A1

Dimension: 71.06inch×43.1inch×58.66inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 701pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Smart Machine is an excellent option for anyone looking to strengthen their thigh muscles. Thanks to its advanced Speediance digital weight technology, this machine can efficiently target your thighs, helping you achieve your fitness goals in no time. And with a built-in tracking system, you can keep tabs on your progress and stay motivated throughout your workout routine.

Smart Lying Legs Curl Machine

M17D3A1A1

Dimension: 62.01inch×41.34inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 416pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Smart Machine, equipped with Speediance digital weight, targets your thigh muscles and strengthens your hamstrings, enabling you to complete high-level leg programs. Its built-in system accurately records your training metrics.

Smart Seated Row Machine

M23D1A1A1

Dimension: 62.2inch×42.52inch×54.69inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 421pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Seated Row machine, equipped with cutting-edge Speediance digital weight technology, is designed to work out the muscles in your upper back and lat with pinpoint accuracy. And with a built-in tracking system that accurately records your training metrics, you can stay motivated and see your progress as you work towards a stronger, healthier you.

Smart Abdominal Crunch Machine

M71CSA1A1

Dimension: 62.6inch×40.39inch×60.28inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 439pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

Adapted with Speediance digital weight technology, this machine can efficiently target your abdominal muscles and help accelerate fat-burning in that area. And as a bonus, it also helps tone your arms. With a built-in system that accurately records your training metrics, you can keep track of your progress and stay motivated to reach your fitness goals.

Smart Seated Lateral Raise Machine

M14U2A1A1

Dimension: 45.47inch×53.54inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 440pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Seated Lateral Raise machine, featuring advanced Speediance digital weight technology, is designed to activate your shoulder joint and improve your posture while increasing your flexibility. Regular use can also help you avoid developing a square shoulder, leaving you looking and feeling great. And with a built-in tracking system that accurately records your training metrics, you can easily monitor your progress and stay motivated to reach your fitness goals.

Smart Rotary Torso machine

M75D1A1A1

Dimension: 51.18inch×60.24inch×56.1inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 417pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

The Smart Machine, equipped with Speediance digital weight, strengthens your core, legs, and arms while increasing your body balance and flexibility. Its built-in tracking system accurately records your training metrics.

Smart Booty Booster

M53D1A1A1

Dimension: 46.57inch×44.96inch×58.07inch
Resistance Mode: Standard, Chain, Eccentric Mode
Machine Weight: 515pounds
Maximum Resistance: 220pounds
Rated Power: 1600 W
Min Increment: 1pound
Resistance Source: Direct-Drive Motor
Operation Mode: TouchScreen
Build-In System: Android
Activated Weight: 13pounds

Main Feature:

With advanced Speediance digital weight technology, this machine is designed to help you achieve your fitness goals by working your glutes and legs with precision. And with a built-in tracking system, you can accurately record your training metrics, making it easy to track your progress and stay motivated.
